

Showcased at Ampleon Booth EUMW 2025

E-REON B.V. is an independent engineering company based in the Netherlands, specializing in RF, microwave, and mmWave design. Over the past decade, we have grown from a small technical team into a trusted partner for organizations in aerospace, defense, telecommunications, and industrial markets.

Why Choose US?

- + Proven expertise in RF & Microwave design
- + Trusted partner for aerospace, defense & industrial markets
- + Integrated RF, power, and thermal design approach
- + 10+ years of innovation in high-power systems

Applications

Medical LINACs, High-Energy Physics Drivers

Key Specs

400 W Pulsed, High Efficiency, Fast Pulse Response

Technology

Solid-State LDMOS, Thermal-optimized Design
